

# FLORIDA AUDIT FORUM SEMI-ANNUAL MEETING

Tampa, Florida ~ August 7, 2015

---

## AGENDA

(ELIGIBLE FOR 6 CPE CREDITS)

7:30 Organizational Meeting (Open to All)

7:45 General Session Registration

8:15 Opening Remarks

8:20 **CREATING POSITIVE CHANGE IN THE WORLD OF GOVERNMENT AUDITING**

Presented By: *Steve Hooper & Mark Kolman*  
Hillsborough County Clerk of Court

*Topics Include:*

- Politics, Culture, and Internal Auditing in the World of Government:
  - A discussion of the people and process challenges we encounter as government internal auditors.
- Spreading the Good Word:
  - Educating audit clients about the importance of internal controls (without speaking 'auditoese').
- Marketing the Internal Audit Function:
  - Creating a friendlier audit/client work environment.

10:00 Break/Networking

10:20 **CREATING POSITIVE CHANGE IN THE WORLD OF GOVERNMENT AUDITING** (Continued)

12:00 Lunch (provided)

1:00 **CURRENT IT AUDIT HOT TOPICS**

Presented By: *Spring Phillips*  
Senior Manager – Sunera

*Topics Include:*

- Internet of Things:
  - Many consider the Internet of Things (IoT) the “interconnection of uniquely identifiable embedded computing devices within the existing internet infrastructure”. Each new connected device brings additional security risks to our organization. How do we decide what we should be auditing?

# FLORIDA AUDIT FORUM SEMI-ANNUAL MEETING

Tampa, Florida ~ August 7, 2015

---

- Big Data:
  - With the IoT comes access to unlimited amounts of data, or Big Data. What do we do with it? How do we weed through to find what's relevant to our organization and may impact our audits? Big Data is overwhelming amounts of data from every possible source: financial information, marketing research, customer information, reliable vs. unreliable information – how do we know?
- Millennials:
  - People who have grown up with the Internet of Things and Big Data. How do they fit into our workplaces? How can we bridge the gap between millennial IT auditors and traditional IT departments? How can we train them to work with traditional IT organizations? Do they have an unfair advantage?

1:50 Break/Networking

2:10 **SOCIAL ENGINEERING**

Presented By: *Aaron Markell*

Information Security Manager – Hillsborough County Aviation Authority

*Topics Include:*

- Social Engineering, an effective and cost effective means to bypass high dollar Information Security controls.
- Watch a live demo of a Social Engineering attack.
- Tips, tricks and hacks to educate yourself against a Social Engineering attack.

3:00 Wrap-Up and Adjournment
